

WATER

CHANGE A LIFE ■ CHANGE A COMMUNITY

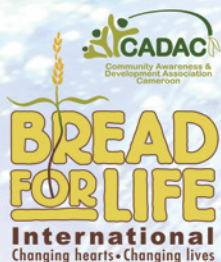

FOR LIFE PROJECT

The lack of adequate water and sanitation facilities in most cities and rural communities across West-Central Africa has led to health issues such as diarrhea, cholera and other related diseases.

Clean water is vital for security and development. In Cameroon, cost of \$6,000 to \$16,000 are currently being charged for the drilling of a single well.

Bread for life has embarked upon a mission to purchase well drilling equipment. In addition to drilling wells for irrigation on our farms and ministry bases, wells will also be drilled in communities and for individuals across our region for a fraction of the current cost.

This opportunity to bless many in a lasting and tangible way will also create ministry opportunities, produce income for Bread For Life, provide funds for the maintenance of the equipment, and offers some valuable vocational training. We are excited to announce that about half of the \$100,000 needed for this equipment has already been raised.

Over 250 acres of virgin forest land among the marginalized Baka Pygmy community of East Cameroon, acquired to broaden BFL's Agricultural ministry and meet its four pronged objectives:

- **Nutritional:** Improve food supply, increase food variety and ensure balanced diet
- **Socio-cultural:** Prevent unnecessary rural exodus by bringing modern agricultural techniques and training to farmers in rural communities
- **Economic:** Revitalize agricultural activities by creating jobs and other opportunities while simultaneously generating revenue for BFL's ongoing efforts
- **Spiritual:** To have spiritual impact through personal contacts and relational evangelism

Beulahland Farms Wish List

- **Chain Saws** to cut down trees for land preparation
- **Monthly stipend of \$200** to support a BFL farmer for 24 months (anticipated period for the farm to yield results).
- **Motorcycles (4)** to ease transportation and costs (about \$1,000 each)
- **\$6,000 - \$16,000** to dig a single well and water tank
- **\$300** to fully develop an acre of this virgin forest land
- **Building equipment & materials** for staff housing
- **Assorted farm tools**

Support for Bread For Life is tax deductible.
